

## MISS HOLLOWAY DEAD

Unable to Clear Up the Mystery of the Assault Upon Her.

Ammer Handle Found in Watchman Massey's Room.

Is Was in the House at the Time, and Has Been Rearrested.

BORDENTOWN, N. J., May 24.—The mysterious assault upon Miss Lillian Holloway while she was sleeping yesterday morning in her parents' home, this city, as told in yesterday's "Evening World," has resulted in murder charges against a watchman, William Massey, a boarder in the house, who was arrested yesterday on suspicion and released in \$500 bail, has been rearrested, and is now locked up at police headquarters. It is believed that Mayor Hudson, who ordered Massey's arrest, was prompted to take this action by a statement made to him by the murdered girl, which was incomplete when she relapsed into unconsciousness.

Circumstances also tend to implicate Massey. The crime was committed in broad daylight, and it is known that Massey was in the Holloway house at the time.

Mayor Hudson and the entire police force of Bordentown are at work on the case. An autopsy, which will be held on the body of the murdered girl, will disclose the motive, which is now only hinted at, for the crime.

As it does not appear that anything was stolen from the house, it is the general opinion that the crime was not committed by a burglar, but by a person who was well acquainted with the premises and the family, and who knew that Miss Holloway's parents had come on a visit to Philadelphia.

Miss Holloway, who was eighteen years old, was in the house with her parents when her parents left home. Massey, who was employed as a night watchman in the Springfield Hotel, was seen at home at daylight, as was his custom, and went to his room. He was supposed to be asleep when Mrs. Holloway was startled by a noise.

Miss Holloway after attending to some household duties, went to her room to lie down, as she was feeling unwell. She was awakened by receiving two blows on the head. She saw the form of a man in her room, and she tried to crawl to a window and screamed for help.

Blood was flowing down her face, and she was in a very weak condition when some neighbors came to her assistance. All day yesterday she remained in a semi-conscious condition, and was delirious.

Massey, soon after the assault, was arrested on suspicion of the crime. He positively denied that he knew anything about the matter. The first he knew of it was when he saw her when he heard Miss Holloway scream.

He said he saw nothing of the assault, although he was in the house as soon as possible. Massey was taken to go to the hospital, but he was not able to work in the morning.

When Mayor Hudson heard that Miss Holloway was sinking and would probably not live throughout the night, he ordered the removal of the body. The latter is now locked up at Police Headquarters. He still maintains that he is innocent.

A strong link in the chain of circumstantial evidence against Massey is a hammer-handle found in his room. It was supposed to be the handle of the hammer which was used to strike the blows on Miss Holloway's head, and which was found in the room of the watchman. It is apparent that the blows were made by a club or some other blunt instrument.

Miss Holloway's parents hastily returned from Philadelphia last night, and were present at the bedside of the daughter when she died. She could not talk to them, and was scarcely able to recognize them.

## WOMAN ACCUSED OF FORGERY

Mrs. Pearl Charged with Conspiracy to Defraud.

Detective Sergeants Von Gerichten and Mulry, of the District-Attorney's office, this morning arrested Mrs. Mary A. Pearl, of 571 Second avenue, on a charge of forgery.

Mrs. Pearl, who is a modest-looking woman about twenty-nine years old, was jointly indicted yesterday with a man named Joseph Jordan, who is now under arrest in Yorkville on the charge of forgery. The complaint against Mrs. Pearl is that she induced Jordan to sign her husband's name to a paper bearing upon it the name of the watchman at Henry B. Snyder's furniture store, 822 Broadway.

The act was to defraud the Company. It is alleged, and upon testimony of the firm a warrant was issued for the arrest of Mrs. Pearl in Part I. of General Sessions yesterday.

Mrs. Pearl was taken before Judge Fitzgerald at noon and pleaded not guilty to forgery in the second degree.

Lawyer Theodore Pentecost was assigned by the Court to defend the prisoner, who was admitted to bail in the sum of \$1,500. Justice Vrooman, who presided in Court, held Jordan for trial in General Sessions, fixing the bail at \$2,000. Forgery was the charge.

## VERDICT FOR DR. SCHOPEN.

Baldwin Must Pay \$1,100 for Medical Attendance Upon His Wife.

WHITE PLAINS, N. Y., May 24.—A sealed verdict was rendered to-day by the jury in the case of Dr. Schopen, who sued Homer R. Baldwin and his wife, Gertrude, in the Supreme Court, to recover for medical attendance on a bill due for medical services rendered to Mrs. Baldwin. The latter was injured in a collision with the Hudson River Railroad car on Christmas Eve, 1932.

The verdict was in favor of the plaintiff for \$1,100 and costs. The verdict solely affects Mr. Baldwin, as the jury decided that Mrs. Baldwin was not responsible for the contract made with Dr. Schopen.

Counsel for Mr. Baldwin at once moved for a stay, which was denied, and will carry the case to the General Term.

Landlord and Tenant Arrested.

Mrs. Rosa Young, of 44 East Eleventh street, her two daughters and two other women were arrested before Justice Hogan, in Essex Market Court, to-day on the complaint of Emanuel Kneisel, the landlord of the house at the address. He stated that the women would send out for beer from early morning until late at night, and that the noise that had caused other tenants Justice Hogan to remove the women, and then told them to go home.

## BROOKLYN'S BIG WALK.

Over 80,000 Sunday-School Scholars Expected in Line To-Morrow.

All Depends Upon the Weather, but the Youngsters Are Hopeful.

Eighty thousand children in Brooklyn are to-day hoping that the weather will be fine to-morrow so that they can fittingly celebrate the sixty-fifth anniversary of the Brooklyn Sunday-School Union. They feel somewhat discouraged by Forecaster Dunn's partial promise that to-morrow may be fair.

The preparations for to-morrow's celebration are more elaborate than ever. It is expected that there will be more children in line, better speaking, better singing, more profuse decorations and refreshments in larger quantities than ever seen before in connection with Brooklyn's May walk.

At 10 o'clock to-morrow morning, the children will be lined up in front of the Brooklyn Sunday-School Union building, and will march to the City Hall.

The children are hoping that the day will be fine, because if it is stormy they will have no parade. Such other exercises as there are to be held will be held in the churches.

The celebration will be begun to-morrow by the ringing of the City Hall bells at 11 o'clock. All the Sunday-schools except those in the Prospect Park Division will assemble in the churches selected at 2:30 o'clock in the afternoon. A programme about an hour in length will be rendered, consisting of singing, scripture reading, prayer and addresses.

The schools have been divided into the following divisions: HANCOCK DIVISION, Capt. William Kerley, grand marshal; six schools and 7,000 scholars; RANDOLPH DIVISION, Capt. William Kerley, grand marshal; six schools and 7,000 scholars; CLINTON DIVISION, Charles H. Taft, grand marshal; twenty schools, 10,000 scholars.

## MRS. CUMMINGS COMPLAINS OF HER

Grocer to Health Officials.

She Advises Filtering or "Trying Another Pump."

Mrs. Mary Cummings, of 280 Court street, Brooklyn, called at the Health Department this morning, and urged the authorities to make a rigid investigation of the sources of supply of the milk which is furnished to families in that section of South Brooklyn.

Producing a package wrapped in an old newspaper, she carefully unfolded the covering and brought forth a small bottle. There was nothing extraordinary in the appearance of the phial, but its contents aroused the interest of the clerks and other attaches.

Lying at the bottom of the bottle was a small object, which looked like a leech. The little animal had a yellow body, covered with little black spots. It was dead, but Mrs. Cummings assured Dr. Doty that it was very much alive when it came into her possession.

Mrs. Cummings was thirsty on Sunday morning, and she went to a grocer in the vicinity and bought three quarts of milk. She says she washed the bottle before she used it, and that she returned home she took "a long drink" of the milk and set the vessel on a table. A moment later she discovered the milk in the vicinity and bought three quarts of milk. ## TEN NEW SMALL-POX CASES.

Seven Discovered in the Lower Part of the Fourth Ward.

Largest Number Reported in One Day, for Months Past.

The number of cases of small-pox in the lower end of the Fourth Ward shows such a big increase as to excite the apprehension of Dr. Doty, Chief of the Bureau of Contagious Diseases.

Ten victims of the disease were removed this morning to North Brother Island. This is the largest number that has been reported in any one day for months past.

Seven of the cases were found in the lower part of the Fourth Ward. They were Catherine Carty, forty years old, of 49 James street; Margaret Sullivan, three years old, of 29 Henry street; Mary Levy, twenty-five years old, of 25 Henry street; Patrick Walsh, thirty-five years old, of 45 Madison street; Raphael Corbett, six years old, of 61 James street; Annie Kerrigan, forty-six years old, of 48 Roosevelt street; and George P. Johnson, forty-one years old, of 24 Elizabeth street.

The other cases were Louis Randell, forty years old, of 108 Amsterdam avenue; Charles Kelly, forty-one years old, who was removed from the canal-bath; Levi P. Morton, at the foot of West Street; and Sarah Leno, forty years old, of 48 Hudson street.

Dr. Doty believes that the disease was spread in the Fourth Ward by two children, who were taken to the hospital ten days ago he received an anonymous communication, stating that it was suspected that the disease was being concealed. Investigation by health inspectors proved the statement to be true.

The children in the house had been allowed to play in the vicinity during the early stages of the disease, thus spreading the contagion. John Johnson, a neighbor from the Mercer street police station, he walked in there this morning, and told the authorities that he had seen the children playing in the vicinity.
